Ambròsus

Trusted Quality of Products

What It Is

Combining high-tech sensors, blockchain protocol and smart contracts, Ambrosus is building a universally verifiable, community-driven ecosystem to assure the quality, safety & origins of products.

Ambrosus Ecosystem

Supply Chain 2.0

intelligent governance of supply chains with full control of processes, quality and tracing

Data Transformation

sensors generate valuable data about goods and shipments that can be monetised

Direct Deals

commodities exchange platform and decentralised marketplaces open new paths to commerce

Distributed Versatility

from nanosensors to supercomputers, all devices interoperate with no central node
